S.S.L.C	Bharathi Higher Secondary School, Namakkal.	2010	92.5%

## Technical Exposure

- ☐ Programming Languages : java, Android

## Area of Interest

- ☐ Oops, Core Java, Android

## Certified Course

- ☐ Android Application development training at **Falgee Institute**

## Academic Project

- ☐ Real time embedded system to monitor and control light and temperature.

## Android Project

- ☐ Worked on **You TV & Remote** App.
- ☐ **Description :**  
This Application is to play Youtube videos remotely. This application need to be installed in two devices out of which one will be the remote and another will be the TV. Here selected videos from the remote will play in the TV through this application.
- ☐ Worked on **Sandbox** App.
- ☐ **Description:**  
Developed a custom applock application which provides a restrictive access to only TENE android applications while blocking access to any other android application in the company distributed android tablets. The app communicates with the server to identify the allowed as well as prohibited apps for the device.  
Additionally the app periodically collects and relays device status as well as usage statistics to the server.
- ☐ Worked on **DESEE** App.
- ☐ **Description:**  
The app helps the user to identify the different pest that affects the crops and provides solution to control the pest. It also identifies the weeds and helps in weed removal and control.  
The app uses the database of images stored in the server to identify pest and weeds, if suitable match is not found user can submit the photo of an affected crop for further analysis and support.
